

## Chemical Safety Data Sheet MSDS / SDS

## Sodium fluoride

Revision Date:2023-11-29 Revision Number:1

## SECTION 1: Identification of the substance/mixture and of the company/undertaking

## Product identifier

Product name : Sodium fluoride  
CBnumber : CB8854278  
CAS : 7681-49-4  
EINECS Number : 231-667-8  
Synonyms : NaF,Sodium fluoride

## Relevant identified uses of the substance or mixture and uses advised against

Relevant identified uses : For R&D use only. Not for medicinal, household or other use.  
Uses advised against : none

## Company Identification

Company : Chemicalbook  
Address : Building 1, Huihuang International, Shangdi 10th Street, Haidian District, Beijing  
Telephone : 400-158-6606

## SECTION 2: Hazards identification

## GHS Label elements, including precautionary statements

Symbol(GHS)

Signal word

Danger

## Precautionary statements

P405 Store locked up.

P321 Specific treatment (see ... on this label).

P305+P351+P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do.

Continuerinsing.

## Hazard statements

H319 Causes serious eye irritation

H315 Causes skin irritation

H303 May be harmful if swallowed

H301 Toxic if swallowed

## SECTION 3: Composition/information on ingredients

### Substance

|              |                        |
|--------------|------------------------|
| Product name | : Sodium fluoride      |
| Synonyms     | : NaF, Sodium fluoride |
| CAS          | : 7681-49-4            |
| EC number    | : 231-667-8            |
| MF           | : FNa                  |
| MW           | : 41.99                |

---

## SECTION 4: First aid measures

### Description of first aid measures

#### General advice

Hydrofluoric (HF) acid burns require immediate and specialized first aid and medical treatment. Symptoms may be delayed up to 24 hours depending on the concentration of HF. After decontamination with water, further damage can occur due to penetration/absorption of the fluoride ion. Treatment should be directed toward binding the fluoride ion as well as the effects of exposure. Skin exposures can be treated with a 2.5% calcium gluconate gel repeated until burning ceases. More serious skin exposures may require subcutaneous calcium gluconate except for digital areas unless the physician is experienced in this technique, due to the potential for tissue injury from increased pressure. Absorption can readily occur through the subungual areas and should be considered when undergoing decontamination. Prevention of absorption of the fluoride ion in cases of ingestion can be obtained by giving milk, chewable calcium carbonate tablets or Milk of Magnesia to conscious victims. Conditions such as hypocalcemia, hypomagnesemia and cardiac arrhythmias should be monitored for, since they can occur after exposure. Show this material safety data sheet to the doctor in attendance.

#### If inhaled

After inhalation: fresh air.

#### In case of skin contact

First treatment with calcium gluconate paste. In case of skin contact: Take off immediately all contaminated clothing. Rinse skin with water/shower.

#### In case of eye contact

After eye contact: rinse out with plenty of water. Call in ophthalmologist. Remove contact lenses.

#### If swallowed

If swallowed: give water to drink (two glasses at most). Seek medical advice immediately. In exceptional cases only, if medical care is not available within one hour, induce vomiting (only in persons who are wide awake and fully conscious), administer activated charcoal (20 - 40 g in a 10% slurry) and consult a doctor as quickly as possible.

### Most important symptoms and effects, both acute and delayed

The most important known symptoms and effects are described in the labelling (see section 2.2) and/or in section 11

### Indication of any immediate medical attention and special treatment needed

No data available

---

## SECTION 5: Firefighting measures

## Extinguishing media

### Suitable extinguishing media

Use extinguishing measures that are appropriate to local circumstances and the

### Unsuitable extinguishing media

For this substance/mixture no limitations of extinguishing agents are given.

## Special hazards arising from the substance or mixture

Hydrogen fluoride Sodium oxides Not combustible.

Ambient fire may liberate hazardous vapours.

## Advice for firefighters

Stay in danger area only with self-contained breathing apparatus. Prevent skin contact by keeping a safe distance or by wearing suitable protective clothing.

## Further information

Suppress (knock down) gases/vapors/mists with a water spray jet. Prevent fire extinguishing water from contaminating surface water or the ground water system.

## NFPA 704

**HEALTH 3** Short exposure could cause serious temporary or moderate residual injury (e.g. [liquid hydrogen](#), [sulfuric acid](#), [calcium hypochlorite](#), hexafluorosilicic acid)

**FIRE 0** Materials that will not burn under typical fire conditions, including intrinsically noncombustible materials such as concrete, stone, and sand. Materials that will not burn in air when exposed to a temperature of 820 °C (1,500 °F) for a period of 5 minutes.(e.g. Carbon tetrachloride)

**REACT 0** Normally stable, even under fire exposure conditions, and is not reactive with water (e.g. helium,[N2](#))

**SPEC.**

**HAZ.**

## SECTION 6: Accidental release measures

### Personal precautions, protective equipment and emergency procedures

Advice for non-emergency personnel: Avoid inhalation of dusts. Avoid substance contact. Ensure adequate ventilation. Evacuate the danger area, observe emergency procedures, consult an expert.

For personal protection see section 8.

## Environmental precautions

Do not let product enter drains.

## Methods and materials for containment and cleaning up

Cover drains. Collect, bind, and pump off spills. Observe possible material restrictions (see sections 7 and 10). Take up carefully. Dispose of properly. Clean up affected area. Avoid generation of dusts.

## Reference to other sections

For disposal see section 13.

---

# SECTION 7: Handling and storage

## Precautions for safe handling

For precautions see section 2.2.

## Conditions for safe storage, including any incompatibilities

## Storage conditions

Tightly closed. Dry. Keep in a well-ventilated place. Keep locked up or in an area accessible only to qualified or authorized persons. Moisture sensitive. Do not store in glass

## Specific end use(s)

Apart from the uses mentioned in section 1.2 no other specific uses are stipulated

---

# SECTION 8: Exposure controls/personal protection

## control parameter

### Hazard composition and occupational exposure limits

Does not contain substances with occupational exposure limits.

## Exposure controls

### Personal protective equipment

#### Eye/face protection

Use equipment for eye protection tested and approved under appropriate government standards such as NIOSH (US) or EN 166(EU). Safety glasses

#### Skin protection

This recommendation applies only to the product stated in the safety data sheet, supplied by us and for the designated use. When dissolving in or mixing with other substances and under conditions deviating from those stated in EN374 please contact the supplier of CE-approved gloves (e.g. KCL GmbH, D-36124 Eichenzell, Internet: [www.kcl.de](http://www.kcl.de)).

Full contact

Material: Nitrile rubber

Minimum layer thickness: 0,11 mm Break through time: 480 min

Material tested:KCL 741 Dermatril? L

This recommendation applies only to the product stated in the safety data sheet, supplied by us and for the designated use. When dissolving in or mixing with other substances and under conditions deviating from those stated in EN374 please contact the supplier of CE-approved gloves (e.g. KCL GmbH, D-36124 Eichenzell, Internet: [www.kcl.de](http://www.kcl.de)).

Splash contact Material: Nitrile rubber

Minimum layer thickness: 0,11 mm Break through time: 480 min

Material tested:KCL 741 Dermatril? L

#### Body Protection

protective clothing

#### Respiratory protection

Recommended Filter type: Filter B-(P3)

The entrepreneur has to ensure that maintenance, cleaning and testing of respiratory protective devices are carried out according to the instructions of the producer.

These measures have to be properly documented.

#### Control of environmental exposure

Do not let product enter drains.

---

## SECTION 9: Physical and chemical properties

### Information on basic physicochemical properties

|  |   |
|--|---|
| Appearance                                   | white crystalline   |
| Odour  | No data available   |
| Odour Threshold                              | No data available   |
| pH   | 7.0-10.0 (25 °C, 0.5M in H <sub>2</sub> O)                                    |
| Melting point/freezing point                 | Melting point/range: 993 °C   |
| Initial boiling point and boiling range      | 1700 °C   |
| Flash point                                  | 1704 °C   |
| Evaporation rate                             | No data available   |
| Flammability (solid, gas)                    | The product is not flammable.   |
| Upper/lower flammability or explosive limits | No data available   |
| Vapour pressure                              | 1,9 hPa   |
| Vapour density                               | No data available   |
| Relative density                             | 2.558   |
| Water solubility                             | H <sub>2</sub> O: 0.5 M at 20 °C, clear, colorless                            |
| Partition coefficient: n-octanol/water       | No data available   |
| Autoignition temperature                     | No data available   |
| Decomposition temperature                    | No data available   |
| Viscosity                                    | Viscosity, kinematic: No data available Viscosity, dynamic: No data available |
| Explosive properties                         | No data available   |
| Oxidizing properties                         | No data available   |

### Other safety information

-  
No data available

---

## SECTION 10: Stability and reactivity

### Reactivity

No data available

### Chemical stability

The product is chemically stable under standard ambient conditions (room temperature) .

### Possibility of hazardous reactions

Contact with acids liberates very toxic gas.

### Conditions to avoid

Exposure to moisture.

Reacts dangerously with glass. no information available

### Incompatible materials

glass

### Hazardous decomposition products

In the event of fire: see section 5

---

## SECTION 11: Toxicological information

### Information on toxicological effects

#### Acute toxicity

LD50 Oral - Rat - male and female - 148,5 mg/kg

(US-EPA)

Remarks: (ECHA) Inhalation

#### Skin corrosion/irritation

Irritating to skin.

#### Serious eye damage/eye irritation

Eyes - Rabbit

Result: Eye irritation - 24 h Remarks: Moderate eye irritation

#### Respiratory or skin sensitization

Buehler Test - Guinea pig Result: negative Remarks: (ECHA)

#### Germ cell mutagenicity

Test Type: Mutagenicity (mammal cell test): Metabolic activation: without metabolic activation Result: negative

Remarks: (ECHA) Test Type: Ames test

Test system: Salmonella typhimurium

Metabolic activation: with and without metabolic activation Result: negative

Remarks: (ECHA)

Test Type: Genotoxicity in vivo Species: Mouse

Application Route: Oral Result: negative

#### **Carcinogenicity**

No data available

#### **Reproductive toxicity**

No data available

#### **Specific target organ toxicity - single exposure**

No data available

#### **Specific target organ toxicity - repeated exposure**

No data available

#### **Aspiration hazard**

No data available

#### **Toxicity**

LD50 orally in rats: 0.18 g/kg (Smyth)

---

## SECTION 12: Ecological information

### **Toxicity**

#### **Toxicity to fish**

mortality NOEC - Cyprinodon variegatus (sheepshead minnow) - 500 mg/l - 96 h

LC50 - Gambusia affinis (Mosquito fish) - 925 mg/l - 96 h Remarks: (IUCLID)

#### **Toxicity to daphnia and other aquatic invertebrates**

LC50 - Oncorhynchus mykiss (rainbow trout) - 200 mg/l - 96 h

EC50 - Daphnia magna (Water flea) - 338 mg/l - 48 h Remarks: (IUCLID)

#### **Toxicity to algae**

IC50 - Desmodesmus subspicatus (green algae) - 850 mg/l - 72 h Remarks: (IUCLID)

#### **Toxicity to bacteria**

EC0 - Pseudomonas putida - 231 mg/l - 16 h

Remarks: (referred to the anion) (maximum permissible toxic concentration) (IUCLID)

EC50 - activated sludge - 2.930 mg/l - 3 h (ISO 8192)

Remarks: (IUCLID)

### **Persistence and degradability**

The methods for determining biodegradability are not applicable to inorganic substances.

### **Bioaccumulative potential**

Bioaccumulation Salmo trutta - 10 d

- 5 mg/l(sodium fluoride)

Bioconcentration factor (BCF): 2,3

### Mobility in soil

No data available

### Results of PBT and vPvB assessment

This substance/mixture contains no components considered to be either persistent, bioaccumulative and toxic (PBT), or very persistent and very bioaccumulative (vPvB) at levels of 0.1% or higher.

### Other adverse effects

No data available

---

## SECTION 13: Disposal considerations

### Waste treatment methods

#### Product

See [www.retrologistik.com](http://www.retrologistik.com) for processes regarding the return of chemicals and containers, or contact us there if you have further questions.

#### Incompatibilities

Contact with acids release toxic gas. Incompatible with oxidizers (chlorates, nitrates, peroxides, permanganates, perchlorates, chlorine, bromine, fluorine, etc.); contact may cause fires or explosions. Keep away from alkaline materials, strong bases, strong acids, oxoacids, epoxides.

#### Waste Disposal

In accordance with 40CFR165, follow recommendations for the disposal of pesticides and pesticide containers. Must be disposed properly by following package label directions or by contacting your local or federal environmental control agency, or by contacting your regional EPA office.

---

## SECTION 14: Transport information

### UN number

ADR/RID: 1690 IMDG: 1690 IATA: 1690

### UN proper shipping name

ADR/RID: SODIUM FLUORIDE, SOLID IMDG: SODIUM FLUORIDE, SOLID

IATA: Sodium fluoride, solid

|      |                            |           |
