# Chemical Safety Data Sheet MSDS / SDS

# 2-Bromo-3-fluoro-5-(trifluoromethyl)pyridine

Revision Date:2023-12-07 Revision Number:1

# SECTION 1: Identification of the substance/mixture and of the company/undertaking

# **Product identifier**

| Product name  | : 2-Bromo-3-fluoro-5-(trifluoromethyl)pyridine                                       |  |  |  |
|---|--|--|--|--|
| CBnumber  | : CB61113141   |  |  |  |
| CAS   | : 89402-29-9   |  |  |  |
| Synonyms  | : 2-Bromo-3-fluoro-5-(trifluoromethyl)pyridine                                       |  |  |  |
| Relevant identified uses of the substance or mixture and uses advised against |  |  |  |  |
| Relevant identified uses  | : For R&D use only. Not for medicinal, household or other use.                       |  |  |  |
| Uses advised against  | : none   |  |  |  |
| Company Identification  |  |  |  |  |
| Company   | : Chemicalbook   |  |  |  |
| Address   | : Building 1, Huihuang International, Shangdi 10th Street, Haidian District, Beijing |  |  |  |
| Telephone   | : 400-158-6606   |  |  |  |

# SECTION 2: Hazards identification

| Classification of the substance or mixture |   |  |
|--|---|--|
| no data available                          |   |  |
| Label elements                             |   |  |
| Pictogram(s)                               |   |  |
|  |   |  |
| Signal word                                | Warning   |  |
| Hazard statement(s)                        |   |  |
| H315 Causes skin irritation                |   |  |
| H319 Causes serious eye irritation         |   |  |
| Precautionary statement(s)                 |   |  |
| P305+P351+P338 IF IN EYES: Rinse of        | autiously with water for several minutes. Remove contact lenses, if present and easy to do. |  |
| Continuerinsing.                           |   |  |
| Prevention                                 |   |  |
| no data available                          |   |  |
| Response                                   |   |  |
| no data available                          |   |  |

#### Storage

no data available

#### Disposal

no data available

## Other hazards

no data available

# SECTION 3: Composition/information on ingredients

#### Substance

| Product name | : 2-Bromo-3-fluoro-5-(trifluoromethyl)pyridine |
|--------------|--|
| Synonyms     | : 2-Bromo-3-fluoro-5-(trifluoromethyl)pyridine |
| CAS          | : 89402-29-9                                   |
| MF           | : C6H2BrF4N                                    |
| MW           | : 243.98                                       |

# SECTION 4: First aid measures

## Description of first aid measures

#### lf inhaled

Move the victim into fresh air. If breathing is difficult, give oxygen. If not breathing, give artificial respiration and consult a doctor immediately.

Do not use mouth to mouth resuscitation if the victim ingested or inhaled the chemical.

#### Following skin contact

Take off contaminated clothing immediately. Wash off with soap and plenty of water. Consult a doctor.

#### Following eye contact

Rinse with pure water for at least 15 minutes. Consult a doctor.

#### **Following ingestion**

Rinse mouth with water. Do not induce vomiting. Never give anything by mouth to an unconscious person. Call a doctor or Poison Control Center immediately.

#### Most important symptoms and effects, both acute and delayed

no data available

## Indication of any immediate medical attention and special treatment needed

no data available

# **SECTION 5: Firefighting measures**

## **Extinguishing media**

## **Specific Hazards Arising from the Chemical**

no data available

## Advice for firefighters

Wear self-contained breathing apparatus for firefighting if necessary.

#### **NFPA 704**

|  | HEALTH        | 2 | Intense or continued but not chronic exposure could cause temporary incapacitation or possible residual injury (e.g. <u>diethyl</u> <u>ether</u> , ammonium phosphate, iodine)   |  |
|--|---------------|---|--|--|
|  | FIRE          | 0 | Materials that will not burn under typical fire conditions, including intrinsically noncombustible materials such as concrete, stone, and sand. Materials that will not burn in air when exposed to a temperature of 820 °C (1,500 °F) for a period of 5 minutes.(e.g. Carbon tetrachloride) |  |
|  | REACT         | 0 | Normally stable, even under fire exposure conditions, and is not reactive with water (e.g. helium, N2)   |  |
|  | SPEC.<br>HAZ. |   |  |  |

# SECTION 6: Accidental release measures

#### Personal precautions, protective equipment and emergency procedures

Avoid dust formation. Avoid breathing mist, gas or vapours. Avoid contacting with skin and eye. Use personal protective equipment. Wear chemical impermeable gloves. Ensure adequate ventilation. Remove all sources of ignition. Evacuate personnel to safe areas. Keep people away from and upwind of spill/leak.

# **Environmental precautions**

Prevent further spillage or leakage if it is safe to do so. Do not let the chemical enter drains. Discharge into the environment must be avoided.

#### Methods and materials for containment and cleaning up

Collect and arrange disposal. Keep the chemical in suitable and closed containers for disposal. Remove all sources of ignition. Use sparkproof tools and explosion-proof equipment. Adhered or collected material should be promptly disposed of, in accordance with appropriate laws and regulations.

# SECTION 7: Handling and storage

#### Precautions for safe handling

Handling in a well ventilated place. Wear suitable protective clothing. Avoid contact with skin and eyes. Avoid formation of dust and aerosols.

Use non-sparking tools. Prevent fire caused by electrostatic discharge steam.

#### Conditions for safe storage, including any incompatibilities

Store the container tightly closed in a dry, cool and well-ventilated place. Store apart from foodstuff containers or incompatible materials.

# SECTION 8: Exposure controls/personal protection

#### **Control parameters**

Occupational Exposure limit values no data available

# Biological limit values

no data available

#### **Exposure controls**

Ensure adequate ventilation. Handle in accordance with good industrial hygiene and safety practice. Set up emergency exits and the riskelimination area.

#### Individual protection measures

#### Eye/face protection

Wear tightly fitting safety goggles with side-shields conforming to EN 166(EU) or NIOSH (US).

#### Skin protection

Wear fire/flame resistant and impervious clothing. Handle with gloves. Gloves must be inspected prior to use. Wash and dry hands. The

selected protective gloves have to satisfy the specifications of EU Directive 89/686/EEC and the standard EN 374 derived from it.

#### **Respiratory protection**

If the exposure limits are exceeded, irritation or other symptoms are experienced, use a full-face respirator.

#### Thermal hazards

no data available

# SECTION 9: Physical and chemical properties

#### Information on basic physicochemical properties

| Physical state                             | no data available   |
|--|---------------------|
| Colour                                     | no data available   |
| Odour                                      | no data available   |
| Melting point/freezing point               | no data available   |
| Boiling point or initial boiling point and | 187.9°C at 760 mmHg |
| boiling range                              |                     |
| Flammability                               | no data available   |
| Lower and upper explosion                  | no data available   |
| limit/flammability limit                   |                     |
| Flash point                                | 67.5°C              |

| Auto-ignition temperature             | no data available                 |
|---------------------------------------|-----------------------------------|
| Decomposition temperature             | no data available                 |
| pH                                    | no data available                 |
| Kinematic viscosity                   | no data available                 |
| Solubility                            | Not miscible or difficult to mix. |
| Partition coefficient n-octanol/water | no data available                 |
| Vapour pressure                       | no data available                 |
| Density and/or relative density       | 1.786g/cm3                        |
| Relative vapour density               | no data available                 |
| Particle characteristics              | no data available                 |
|                                       |                                   |

# SECTION 10: Stability and reactivity

# Reactivity

no data available

#### **Chemical stability**

no data available

# Possibility of hazardous reactions

no data available

#### Conditions to avoid

no data available

# Incompatible materials

no data available

# Hazardous decomposition products

no data available

# SECTION 11: Toxicological information

# Acute toxicity

- Oral: no data available
- Inhalation: no data available
- Dermal: no data available

# Skin corrosion/irritation

no data available

# Serious eye damage/irritation

no data available

## Respiratory or skin sensitization

no data available

# Germ cell mutagenicity

no data available

#### Carcinogenicity

no data available

## **Reproductive toxicity**

no data available

# STOT-single exposure

no data available

#### STOT-repeated exposure

no data available

## Aspiration hazard

no data available

# **SECTION 12: Ecological information**

## Toxicity

Toxicity to fish: no data available Toxicity to daphnia and other aquatic invertebrates: no data available

Toxicity to algae: no data available

Toxicity to microorganisms: no data available

# Persistence and degradability

no data available

Bioaccumulative potential

no data available

## Mobility in soil

no data available

#### Other adverse effects

no data available

# SECTION 13: Disposal considerations

# **Disposal methods**

#### Product

The material can be disposed of by removal to a licensed chemical destruction plant or by controlled incineration with flue gas scrubbing. Do not contaminate water, foodstuffs, feed or seed by storage or disposal. Do not discharge to sewer systems.

#### Contaminated packaging

Containers can be triply rinsed (or equivalent) and offered for recycling or reconditioning. Alternatively, the packaging can be punctured to make it unusable for other purposes and then be disposed of in a sanitary landfill. Controlled incineration with flue gas scrubbing is possible for combustible packaging materials.

# SECTION 14: Transport information

# **UN Number**

ADR/RID: no data available IMDG: no data available IATA: no data available

## **UN Proper Shipping Name**

ADR/RID: no data available IMDG: no data available IATA: no data available

## Transport hazard class(es)

ADR/RID: no data available IMDG: no data available IATA: no data available

# Packing group, if applicable

ADR/RID: no data available

IMDG: no data available

IATA: no data available

## **Environmental hazards**

ADR/RID: No

IMDG: No

IATA: No

## Special precautions for user

no data available

## Transport in bulk according to IMO instruments

no data available

## Safety, health and environmental regulations specific for the product in question

European Inventory of Existing Commercial Chemical Substances (EINECS)

Not Listed. **EC Inventory** Not Listed. United States Toxic Substances Control Act (TSCA) Inventory Not Listed. China Catalog of Hazardous chemicals 2015 Not Listed. New Zealand Inventory of Chemicals (NZIoC) Not Listed. PICCS Not Listed. **Vietnam National Chemical Inventory** Not Listed. IECSC Not Listed. Korea Existing Chemicals List (KECL) Not Listed.
