## Chemical Safety Data Sheet MSDS / SDS

### TERT-AMYL METHYL ETHER

Revision Date:2023-05-19 Revision Number:1

# SECTION 1: Identification of the substance/mixture and of the company/undertaking

#### **Product identifier**

Product name	: TERT-AMYL METHYL ETHER
CBnumber	: CB8442189
CAS	: 994-05-8
EINECS Number	: 213-611-4
Synonyms	: tert-amyl methyl ether, Methyl tert-pentyl ether
Relevant identified uses of the s	ubstance or mixture and uses advised against
Relevant identified uses	: For R&D use only. Not for medicinal, household or other use.
Uses advised against	: none
Company Identification	
Company	: Chemicalbook
Address	: Building 1, Huihuang International, Shangdi 10th Street, Haidian District, Beijing
Telephone	: 400-158-6606

### SECTION 2: Hazards identification

### Classification of the substance or mixture

Flammable liquids, Category 2 Acute toxicity - Category 4, Oral

Specific target organ toxicity – single exposure, Category 3

#### Label elements

#### Pictogram(s)

Signal word Danger Hazard statement(s) H225 Highly Flammable liquid and vapour H302 Harmful if swallowed H336 May cause drowsiness or dizziness H370 Causes damage to organs Precautionary statement(s)

1

P260 Do not breathe dust/fume/gas/mist/vapours/spray.

P261 Avoid breathing dust/fume/gas/mist/vapours/spray.

P280 Wear protective gloves/protective clothing/eye protection/face protection.

P403+P233 Store in a well-ventilated place. Keep container tightly closed.

#### Prevention

P210 Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking.

P233 Keep container tightly closed.

P240 Ground and bond container and receiving equipment.

P241 Use explosion-proof [electrical/ventilating/lighting/...] equipment.

P242 Use non-sparking tools.

P243 Take action to prevent static discharges.

P280 Wear protective gloves/protective clothing/eye protection/face protection/hearing protection/...

P264 Wash ... thoroughly after handling.

P270 Do not eat, drink or smoke when using this product.

P261 Avoid breathing dust/fume/gas/mist/vapours/spray.

P271 Use only outdoors or in a well-ventilated area.

#### Response

P303+P361+P353 IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse affected areas with water [or shower].

P370+P378 In case of fire: Use ... to extinguish.

P301+P317 IF SWALLOWED: Get medical help.

P330 Rinse mouth.

P304+P340 IF INHALED: Remove person to fresh air and keep comfortable for breathing.

P319 Get medical help if you feel unwell.

#### Storage

P403+P235 Store in a well-ventilated place. Keep cool.

P403+P233 Store in a well-ventilated place. Keep container tightly closed.

P405 Store locked up.

#### Disposal

P501 Dispose of contents/container to an appropriate treatment and disposal facility in accordance with applicable laws and regulations, and product characteristics at time of disposal.

#### Other hazards

no data available

### SECTION 3: Composition/information on ingredients

#### Substance

Product name	: TERT-AMYL METHYL ETHER
Synonyms	: tert-amyl methyl ether,Methyl tert-pentyl ether
CAS	: 994-05-8
EC number	: 213-611-4
MF	: C6H14O

### SECTION 4: First aid measures

#### Description of first aid measures

#### If inhaled

Fresh air, rest.

#### Following skin contact

Remove contaminated clothes. Rinse and then wash skin with water and soap.

#### Following eye contact

First rinse with plenty of water for several minutes (remove contact lenses if easily possible), then refer for medical attention.

#### **Following ingestion**

Rinse mouth. Do NOT induce vomiting. Refer for medical attention .

#### Most important symptoms and effects, both acute and delayed

no data available

#### Indication of any immediate medical attention and special treatment needed

Immediate first aid: Ensure that adequate decontamination has been carried out. If patient is not breathing, start artificial respiration, preferably with a demand-valve resuscitator, bag-valve-mask device, or pocket mask, as trained. Perform CPR as necessary. Immediately flush contaminated eyes with gently flowing water. Do not induce vomiting. If vomiting occurs, lean patient forward or place on left side (headdown position, if possible) to maintain an open airway and prevent aspiration. Keep patient quiet and maintain normal body temperature. Obtain medical attention. Esters and related compounds

### **SECTION 5: Firefighting measures**

#### Extinguishing media

Foam, alcohol-resistant foam, dry powder, carbon dioxide ... Keep drums, etc., cool by spraying with water.

#### **Specific Hazards Arising from the Chemical**

Extremely flammable. Vapour/air mixtures are explosive.

#### Advice for firefighters

Use foam, alcohol-resistant foam, dry powder, carbon dioxide. In case of fire: keep drums, etc., cool by spraying with water.

### SECTION 6: Accidental release measures

#### Personal precautions, protective equipment and emergency procedures

Personal protection: filter respirator for organic gases and vapours adapted to the airborne concentration of the substance. Ventilation. Remove all ignition sources. Collect leaking and spilled liquid in sealable containers as far as possible. Absorb remaining liquid in sand or inert absorbent. Then store and dispose of according to local regulations. Do NOT wash away into sewer. Do NOT let this chemical enter the environment.

#### **Environmental precautions**

Personal protection: filter respirator for organic gases and vapours adapted to the airborne concentration of the substance. Ventilation. Remove all ignition sources. Collect leaking and spilled liquid in sealable containers as far as possible. Absorb remaining liquid in sand or inert absorbent. Then store and dispose of according to local regulations. Do NOT wash away into sewer. Do NOT let this chemical enter the environment.

#### Methods and materials for containment and cleaning up

Ventilation. Remove all ignition sources. Collect leaking and spilled liquid in sealable containers as far as possible. Absorb remaining liquid in sand or inert absorbent and remove to safe place. Do NOT wash away into sewer. Do NOT let this chemical enter the environment. Personal protection: filter respirator for organic gases and vapors.

### SECTION 7: Handling and storage

#### Precautions for safe handling

NO open flames, NO sparks and NO smoking. Handling in a well ventilated place. Wear suitable protective clothing. Avoid contact with skin and eyes. Avoid formation of dust and aerosols. Use non-sparking tools. Prevent fire caused by electrostatic discharge steam.

#### Conditions for safe storage, including any incompatibilities

Fireproof.Keep container tightly closed in a dry and well-ventilated place. Containers which are opened must be carefully resealed and kept upright to prevent leakage. Store in cool place.

### SECTION 8: Exposure controls/personal protection

#### **Control parameters**

#### **Occupational Exposure limit values**

TLV: 20 ppm as TWA

#### **Biological limit values**

no data available

#### **Exposure controls**

Ensure adequate ventilation. Handle in accordance with good industrial hygiene and safety practice. Set up emergency exits and the riskelimination area.

#### Individual protection measures

#### Eye/face protection

Wear safety spectacles.

Skin protection

Protective gloves.

#### **Respiratory protection**

Use ventilation, local exhaust or breathing protection.

#### Thermal hazards

### SECTION 9: Physical and chemical properties

### Information on basic physicochemical properties

Physical state	neat
Colour	Colourless.
Odour	no data available
Melting point/freezing point	< -20 °C. Atm. press.:101.3 kPa.
Boiling point or initial boiling point and	87.3 °C. Atm. press.:101.3 kPa.
boiling range	
Flammability	Extremely flammable.
Lower and upper explosion	no data available
limit/flammability limit	
Flash point	-18 °C. Atm. press.:101.3 kPa.
Auto-ignition temperature	430 °C. Atm. press.:101.3 kPa.
Decomposition temperature	no data available
рН	no data available
Kinematic viscosity	kinematic viscosity (in mm2/s) = 0.6. Temperature:20.5°C.;kinematic viscosity (in mm2/s) = 0.494.
	Temperature:40.5°C.
Solubility	Very soluble ethyl ether, ethanol
Partition coefficient n-octanol/water	log Pow = 1.55. Temperature:20 °C.
Vapour pressure	9 100 Pa. Temperature:25 °C.
Density and/or relative density	0.77 g/cm3. Temperature:15 °C.;0.77. Temperature:15 °C.
Relative vapour density	(air = 1): 3.6
Particle characteristics	no data available
•	

### SECTION 10: Stability and reactivity

#### Reactivity

no data available

#### Chemical stability

Stable under recommended storage conditions.

#### Possibility of hazardous reactions

Highly flammableThe vapour is heavier than air.

#### Conditions to avoid

no data available

#### Incompatible materials

Materials to avoid: strong oxidizing agents

#### Hazardous decomposition products

When heated to decomposition it emits acrid smoke and irritating vapors.

### SECTION 11: Toxicological information

#### Acute toxicity

- Oral: LD50 rat (male) 2 417 mg/kg bw.
- Inhalation: LC50 rat (male/female) > 5 400 mg/m3 air.
- Dermal: LD50 rabbit (male/female) > 2 000 mg/kg bw.

#### Skin corrosion/irritation

no data available

#### Serious eye damage/irritation

no data available

#### Respiratory or skin sensitization

no data available

#### Germ cell mutagenicity

no data available

#### Carcinogenicity

no data available

#### **Reproductive toxicity**

no data available

#### STOT-single exposure

If this liquid is swallowed, aspiration into the lungs may result in chemical pneumonitis. Exposure at high levels could cause lowering of consciousness.

#### STOT-repeated exposure

The substance defats the skin, which may cause dryness or cracking.

#### Aspiration hazard

No indication can be given about the rate at which a harmful concentration of this substance in the air is reached on evaporation at 20°C.

### SECTION 12: Ecological information

#### Toxicity

Toxicity to fish: LC50 - Menidia beryllina - 574 mg/L - 96 h.

Toxicity to daphnia and other aquatic invertebrates: LC50 - Americamysis bahia (previous name: Mysidopsis bahia) - 14 mg/L - 96 h. Toxicity to algae: EC50 - Pseudokirchneriella subcapitata (previous names: Raphidocelis subcapitata, Selenastrum capricornutum) - 230 mg/L - 72 h.

Toxicity to microorganisms: EC50 - Pseudomonas putida - 510 mg/L - 16 h. Remarks: Respiration rate.

#### Persistence and degradability

AEROBIC: No biodegradation of tert-amyl methyl ether, present at 3,000 ug/L, was observed when incubated in soils with previous exposure to methyl tert-butyl ether(1). A rate of -40 mg/L/day was reported using acclimated activated sludge. A rate of 69 mg/L per day (0.09 g/g dry weight/day) was removed using upflow anoxic fixed bed reactors, a removal efficiency of >98%(2). tert-Amyl methyl ether did not pass the ready biodegradability test of 60% in 28 days using the Closed Bottle test(3).

#### **Bioaccumulative potential**

An estimated BCF of 5 was calculated in fish for tert-amyl methyl ether(SRC), using a log Kow of 1.55(1) and a regression-derived equation(2). According to a classification scheme(3), this BCF suggests the potential for bioconcentration in aquatic organisms is low(SRC).

#### Mobility in soil

The Koc of tert-amyl methyl ether has been reported to range from 19 to 160(1,2). According to a classification scheme(3), these Koc values suggest that tert-amyl methyl ether is expected to have very high to moderate mobility in soil. Using a model system simulating horizontal ground water flow in the saturated zone, consisting of only soil and water phases (an unconfined sand aquifer was selected as an example case), a Koc of 60 was calculated(4).

#### Other adverse effects

no data available

### SECTION 13: Disposal considerations

#### **Disposal methods**

#### Product

The material can be disposed of by removal to a licensed chemical destruction plant or by controlled incineration with flue gas scrubbing. Do not contaminate water, foodstuffs, feed or seed by storage or disposal. Do not discharge to sever systems.

#### Contaminated packaging

Containers can be triply rinsed (or equivalent) and offered for recycling or reconditioning. Alternatively, the packaging can be punctured to make it unusable for other purposes and then be disposed of in a sanitary landfill. Controlled incineration with flue gas scrubbing is possible for combustible packaging materials.

### **SECTION 14: Transport information**

#### **UN Number**

ADR/RID: UN3271 (For reference only, please check.) IMDG: UN3271 (For reference only, please check.) IATA: UN3271 (For reference only, please check.)

#### **UN Proper Shipping Name**

ADR/RID: ETHERS, N.O.S. (For reference only, please check.) IMDG: ETHERS, N.O.S. (For reference only, please check.) IATA: ETHERS, N.O.S. (For reference only, please check.)

#### Transport hazard class(es)

ADR/RID: 3 (For reference only, please check.) IMDG: 3 (For reference only, please check.) IATA: 3 (For reference only, please check.)

#### Packing group, if applicable

ADR/RID: II (For reference only, please check.) IMDG: II (For reference only, please check.) IATA: II (For reference only, please check.)

#### **Environmental hazards**

ADR/RID: No

IMDG: No

IATA: No

#### Special precautions for user

no data available

#### Transport in bulk according to IMO instruments

no data available

### **SECTION 15: Regulatory information**

#### Safety, health and environmental regulations specific for the product in question

European Inventory of Existing Commercial Chemical Substances (EINECS) Listed. **EC Inventory** Listed. United States Toxic Substances Control Act (TSCA) Inventory Listed. China Catalog of Hazardous chemicals 2015 Not Listed. New Zealand Inventory of Chemicals (NZIoC) Not Listed. PICCS Listed. **Vietnam National Chemical Inventory** Not Listed. IECSC Chemical Book

### **SECTION 16: Other information**

#### Abbreviations and acronyms

CAS: Chemical Abstracts Service

ADR: European Agreement concerning the International Carriage of Dangerous Goods by Road

RID: Regulation concerning the International Carriage of Dangerous Goods by Rail

IMDG: International Maritime Dangerous Goods

IATA: International Air Transportation Association

TWA: Time Weighted Average

STEL: Short term exposure limit

LC50: Lethal Concentration 50%

LD50: Lethal Dose 50%

EC50: Effective Concentration 50%
